Agenda

- **HTML and CSS with WebStorm**
  - Using Existing Code
  - Coding in HTML
  - Live Templates
  - Using Bower
  - Coding in CSS
  - Using Scopes
  - Live Editing
  - Using LESS or SASS

demonstration

USING EXISTING CODE

demonstration

CODING IN HTML

demonstration

LIVE TEMPLATES

demonstration

USING BOWER

demonstration

INTELLISENSE FOR PATHS

demonstration

CODING IN CSS

demonstration

USING SCOPES

demonstration

LIVE EDITING

demonstration

USING LESS AND SASS

Summary

- **HTML and CSS with WebStorm**
  - HTML and CSS development are great using WebStorm
  - Using WebStorm with your existing server-side technology is as simple as opening a directory
  - Unique abilities like the terminal, scopes and live editing simplify the whole process
  - Live templates reduce the amount of duplication in your work and get the job done faster
  - Watchers extend the ability of WebStorm to be able to handle meta languages
